Corporate Governance Statement for the financial year 2025, cf. Section 107(b) of the Danish Financial Statements Act

This Statement forms part of Management's review in the Pandora Annual Report covering the period 1 January – 31 December 2025 and is prepared pursuant to section 107(b) of the Danish Financial Statements Act.

As required for a listed company on Nasdaq Copenhagen under the rules for issuers of shares, Pandora also issues the below Statement of compliance with the Danish Committee on Corporate Governance's Recommendations using the "comply or explain"-principle (Appendix 1). The Corporate Governance Recommendations are published at <https://corporategovernance.dk>. Appendix 1 is not part of the auditor's statement in the Annual Report 2025.

RECOMMENDATIONS AND PRACTICE

Pandora's aim regarding good corporate governance is to ensure transparency, accountability, and that the Company meets its obligations to shareholders, customers, consumers, employees, authorities and other key stakeholders to the best of its ability in order to maximise long-term value creation.

Pandora strives to exercise good corporate governance at all times and assesses its practices against the Corporate Governance Recommendations of the Danish Committee on Corporate Governance. As a publicly listed company, Pandora is subject to the disclosure requirements in applicable legislation and the regulations of Nasdaq Copenhagen. The Board of Directors (the Board) remains committed to, and complies with, the Corporate Governance Recommendations as adopted in December 2020.

GOVERNANCE STRUCTURE

The shareholders exercise their rights at General Meetings, which is the company's supreme governing body. At least one Annual General Meeting is held, where, amongst other duties, members of the Board of Directors (the Board) are elected, the Annual Report is approved and any proposed amendments to the company's Articles of Association are discussed and either adopted or rejected. Pandora operates with a two-tier management structure consisting of the Board and Executive Management. The Board defines the overall vision, strategy and objectives of Pandora's business activities, supervises the performance of Executive Management and is responsible for overseeing the execution of Pandora's business- and sustainability priorities, performance and targets. Furthermore, the Board is responsible for overseeing cybersecurity governance, adopting sustainability-related policies, reviewing sustainability reporting and overseeing performance related to Pandora's strategic sustainability priorities and targets. Members of Executive Management are appointed by the Board and consist of two men representing two nationalities. The composition of the Executive Management Team is designed to ensure relevant and complementary competencies and diversity. Executive Management is responsible for the day-to-day management of the company and for executing Pandora's strategy.

In addition, Pandora has an Executive Leadership Team (ELT), consisting of one woman and seven men in 2025, representing seven different nationalities. Each ELT member is responsible for the daily operations of their respective business area and serves as a part of Pandora's overall leadership. Selected ELT members are also part of Pandora's Sustainability Board.

BOARD OF DIRECTORS

Composition

The Board consists of eight members, seven of whom were elected at the 2025 Annual General Meeting for a one-year term. Lars Sandahl Sørensen was elected at an Extraordinary General Meeting in August 2025. His current term expires at the 2026 Annual General Meeting. As of 31 December 2025, the Board comprises eight members, four women and four men, achieving equal gender representation in line with the Danish Gender Balance Act. In line with the Danish Recommendations on Corporate Governance, 88% of the Board members are regarded as independent. Due to his more than 12-year tenure on the Board, Christian Frigast no longer qualifies as independent. Christian Frigast has announced that he will not be seeking re-election at the 2026 Annual General Meeting.

The composition of the Board is designed to ensure relevant and complementary competencies and diversity. This approach supports Pandora's strategic goals and vision, while ensuring well-considered, diverse and judicious decision-making.

Board evaluation

Each year, the Board conducts a board review focusing on its effectiveness and skills. The ideal mix of skills and experience required of Board members includes:

- Board experience
- Executive management
- Sectoral experience
- Marketing and brand
- Retail
- Digitalisation
- Sustainability
- Finance
- Governance

An external assessment of the Board's skills and effectiveness is conducted every three years to ensure objectivity and benchmarking. In 2025, the Board effectiveness review was conducted internally and the results identified that the Board continues to be well-established and well-functioning, supported by a strong belief in the strategy and effectiveness in collaboration with the committees and Executive Management.

Board activities in 2025

The Board held 10 meetings in 2025. Its primary focus was to strengthen the company's resilience to external factors and navigate Pandora through continued macroeconomic uncertainty, including the implications from increased commodity prices, fluctuating foreign exchange rates, imposed US tariffs and complex socio-political environments. Additionally, the Board ensured that Pandora remained aligned with the Next Growth Chapter of the Phoenix

strategy, announced at Pandora's Capital Markets Day in 2023. The Board also appointed Berta de Pablos-Barbier as new CEO. She succeeded Alexander Lacik on 1 January 2026. Furthermore, the Board continued to oversee cybersecurity governance and the integration of sustainability into relevant processes across Pandora, ensuring alignment with our strategic priorities and sustainability targets.

BOARD COMMITTEES

To support the Board in its duties, the Audit, Nomination and Remuneration Committees have been established. Each committee is responsible for carrying out various preparatory tasks within the Board's key areas of responsibility. The Remuneration Committee is responsible for incentive schemes and remuneration, including those related to sustainability. More information can be found in the [Remuneration Report](#). The committees' terms of reference are available at our website: <https://pandoragroup.com/investor/corporate-governance/governance-documents>.

Audit Committee

The Audit Committee currently has three members, each appointed for a one-year term. The Audit Committee's responsibilities include assisting the Board in monitoring the effectiveness of the internal control and risk management systems, as well as reviewing Pandora's financial and sustainability reporting and audit/assurance processes. The Audit Committee conducts its work in accordance with its Terms of Reference. In 2025, the Audit Committee met six times. Its main activities were to:

- Review key accounting principles, significant estimates, financial risks, and compliance with tax regulations, including deep dives into selected risk areas;
- Monitor the external financial and sustainability reporting process;
- Monitor the effectiveness of Pandora's internal control and risk management systems, including cyber security and ongoing improvements to controls related to financial and sustainability reporting;
- Reviewing the work performed and actions taken by the Group Internal Audit function;
- Monitor cooperation with external auditors and ensure their independence;
- Oversee the ERP implementation and its impact on reporting and controls;
- Review Pandora's whistleblowing reporting system and reported cases;
- Review Pandora's treasury and tax policies, as well as insurance coverage.

Independent auditor

Pandora's independent auditors are appointed for a one-year term at the Annual General Meeting following a proposal from the Board, based on a recommendation from the Audit Committee. The framework for the auditors' responsibilities, including their remuneration, audit and non-audit services, is agreed annually between the Board and the auditors following the recommendation of the Audit Committee

Remuneration Committee

The Remuneration Committee currently has four members, each appointed for a one-year term. The Remuneration Committee assists the Board in ensuring Pandora's remuneration policies strike a balance that aligns with the interests of Pandora's shareholders while providing rewarding and motivating remuneration for Executive Management and senior employees. In 2025, the Remuneration Committee met six times. Detailed information on the

Committee's key activities can be found in the Remuneration Report, accessible at our website: <https://www.pandoragroup.com/investor/corporate-governance/remuneration-reports>.

Nomination Committee

The Nomination Committee currently has four members, each appointed for a one-year term. The Nomination Committee works according to its Terms of Reference and its main responsibilities are assessment and evaluation of the Board and Executive Management, including performance, skills and experience, and nomination of candidates to the Board and Executive Management. Further, the committee monitors talent and succession policy and ensures compliance when making Board, Executive Management and Executive Leadership Team appointments. Finally, it deals with succession planning for Executive Management positions and reviews as well as monitors diversity policy to ensure compliance. In 2025, the Nomination Committee met six times.

SUSTAINABILITY GOVERNANCE

Sustainability is deeply embedded in Pandora's strategic direction and in how we conduct business. The Board governs sustainability at the highest level, approving the sustainability priorities, policies and targets, including the climate transition plan. Execution of the strategy is delegated to Pandora's Sustainability Board, which is responsible for integrating sustainability into business decisions and processes within their respective functions. Reporting to the Executive Leadership Team (ELT), the Sustainability Board is chaired by Pandora's Chief HR Officer and comprises nine senior leaders, including selected ELT members.

Two subject-specific committees (the Responsible Sourcing Committee and the Responsible Marketing Committee) oversee key sustainability areas on responsible sourcing and responsible marketing. The Low Carbon Forum remains active, while the CSRD Task Force has concluded its work.

In 2025, we reconfirmed the conditions of our 2024 Double Materiality Assessment (DMA) and Pandora's material sustainability matters (material matters). The 2025 DMA was approved by Pandora's Sustainability Board and the Audit Committee was engaged to ensure alignment with strategic priorities and targets.

INTERNAL CONTROL AND RISK MANAGEMENT

The Board and Executive Management are responsible for Pandora's internal control and risk management systems in relation to the financial and sustainability reporting process.

Control environment

The Group's internal control framework identifies key processes, inherent risks and control procedures to reduce and mitigate financial and sustainability risks and ensure reliable financial and sustainability reporting. The Audit Committee assists the Board in supervising the financial and sustainability reporting process and monitoring the effectiveness of the internal control and risk management systems. Executive Management is responsible for safeguarding the overall control environment, identifying weaknesses and ensuring necessary steps are taken to mitigate financial and sustainability risks through standardisation and process optimisation. The Internal Audit and Compliance Controlling (IACC) function serves to help Pandora accomplish its objectives by bringing a systematic and disciplined approach to evaluating and improving the effectiveness of internal control, compliance and governance processes. The head of the IACC function reports to Pandora's Chief Financial Officer, with a dotted reporting line to the Audit Committee Chair.

Risk assessment

The Board and Executive Management assess risks on an ongoing basis, including risks related to the financial and sustainability reporting, and they assess measures to manage, mitigate, reduce or eliminate identified risks. The IACC function assists Executive Management and the Audit Committee in identifying and monitoring financial and sustainability risks in the reporting process. The Audit Committee frequently reviews selected high-risk areas, including significant accounting estimates and material changes to accounting policies. Pandora's Global Risk Management function facilitates identification and monitoring of material enterprise risks and validates measurements taken to reduce the risks to an acceptable level.

Control activities

The financial and sustainability information reported by Pandora and its subsidiaries follows a formalised and structured process and is controlled by local controllers with local market knowledge as well as the controlling function within Pandora Global Business Services and Corporate Finance. The Group-controlling functions are continuously trained in new accounting, sustainability and reporting requirements and monitors compliance with relevant legislation and regulations on an ongoing basis.

The financial and sustainability reporting process is dependent on the Group's IT systems. Any weaknesses in system controls and related risks to the financial and sustainability reporting are mitigated by manual controls. Each entity and Global Business Services assess their control environment through a self-assessment of the effectiveness of implemented controls, including those related to sustainability. The sustainability processes and control activities continue to evolve alongside the maturation of the guidance of the requirements in this area. The IACC function evaluates the effectiveness of the Group's control environment on an ongoing basis and reports its findings to the Audit Committee.

Monitoring

Pandora's internal control procedures and risk management systems, including the whistleblowing function, are continuously monitored, tested and documented. The Audit Committee monitors internal controls and the risk management process to ensure that identified risks are mitigated. In addition to monitoring procedures and systems, financial and sustainability risks are reviewed through audits performed by the IACC function.

Information and communication

Group entities are assigned dedicated controllers within Corporate Finance to ensure a direct line of communication. The Corporate Finance function reports to the Chief Financial Officer. In addition, the IACC function is present at all Audit Committee meetings and provides regular status updates on the control environment. Furthermore, the head of the IACC has regular meetings with the Chief Financial Officer and meetings with the Audit Committee without the presence of Executive Management. This setup ensures transparency and that communication is shared with the Audit Committee on a timely basis. The Board has adopted an Investor Relations Policy that requires all communication to stakeholders, including financial and sustainability reporting, to be conducted adequately, timely and openly – both internally and externally – and to be conducted factually and truthfully and in compliance with laws and applicable regulations.

GENDER REPRESENTATION IN MANAGEMENT

In line with the Danish Gender Balance Act, Pandora A/S is committed to promoting an equal gender representation at management level. In 2025, we strengthened succession planning to develop internal female talent and updated recruitment processes to require diverse shortlists and structured evaluations to minimise bias. These key measures delivered positive results. In 2025, representation of the underrepresented gender (women) in our Leadership Team in Pandora A/S1 increased from 17% to 21%, and as of 31 December 2025, our Leadership Team in Pandora A/S comprised 14 members: 3 women (21%) and

11 men (79%). While we have not yet achieved equal gender representation, we will continue raising awareness across management levels and implementing measures until the current target of 28% and subsequent targets are met.
