SHARE BUYBACK PROGRAMME FOR 2013

In connection with the Annual report 2012, PANDORA launched a share buyback programme under which PANDORA expects to buy back own shares of up to DKK 700 million. The programme will end no later than 31 December 2013. The programme is being implemented in accordance with the provisions of the European Commission's regulation no. 2273/2003 of 22 December 2003 ("safe harbour"). Majority shareholder Prometheus Invest ApS participates on a pro-rata basis to secure that the share of free float is not reduced.

On a weekly basis PANDORA issue an announcement in respect of transactions made under the programme. As of 30 June 2013, a total of 1,547,836 shares had been bought back, corresponding to a transaction value of DKK 271 million and an average purchase price of DKK 175.27. As of 30 June 2013, PANDORA owns a total of 1,730,761 treasury shares, corresponding to 1.3% of the share capital.

PANDORA may also use the shares purchased under the programme to meet potential obligations arising from employee share option programmes. As of 30 June 2013, the total potential obligation amounted to 1,591,373 shares due to the annual allocation of the Company's employee share option programme.

EVENTS AFTER THE BALANCE SHEET DATE

EXTRAORDINARY GENERAL MEETING

On 22 July 2013, PANDORA convened an Extraordinary General Meeting to be held on 13 August 2013, with the sole purpose to elect Bjørn Gulden, former CEO of PANDORA, to the Board of Directors.

UPGRADE OF FINANCIAL GUIDANCE 2013

On 30 July 2013, PANDORA announced an upgrade of the financial expectations for 2013. PANDORA expects revenue for 2013 to be approximately DKK 8 billion (from previously guided above DKK 7.2 billion) and expects an EBITDA margin of approximately 27% (from previously guided above 25%).

PANDORA expects CAPEX to be approximately DKK 400 million (previously approximately DKK 300 million) for 2013. The CAPEX figure excludes the one-off payment of DKK 190 million related to the purchase of IP rights from Trollbeads A/S in Q1 2013. The increase in CAPEX is primarily related to expansion of production facilities in Thailand in order to prepare for future demand.

PANDORA continues to expect an effective tax rate of approximately 19% for 2013.

During 2013 PANDORA expects to open approximately 175 Concept stores (from previously guided approximately 150).

REVENUE DEVELOPMENT

Total revenue for Q2 2013 was DKK 1,931 million, an increase of 53.3% compared to Q2 2012, including a negative impact from currency of 1.1 percentage points. Volumes increased by 40% compared to Q2 2012. Our average sales price increased to DKK 134 in Q2 2013 from DKK 123 in Q2 2012. The increase was a consequence of change in revenue mix. The average sales-out price for products on the market 12 months ago was virtually unchanged.

All geographical regions showed double digit growth, which was primarily driven by an increase in sales of newly launched products, continued high replenishment rates as well as new store openings. Furthermore, the new products drop structure initiated in the second half of 2012, introducing seven annual drops instead of two, also had a positive effect on revenue.

The comparable figures for the second quarter last year were impacted by the stock balancing campaign conducted in 2012. For more details on the mechanics of the stock balancing campaign, please refer to PANDORA's Annual Report 2011. Provisions for expected future product returns at the end of Q2 2013 were unchanged as a percentage of revenue, corresponding to approximately 9% of 12 months rolling revenue value.

Based on data from Concept stores, which have been operating for 12 months or more, like-for-like sales-out in PANDORA's four major markets have experienced a positive development in the second quarter. This development is due to the success of newly launched products and generally better execution in stores.

AMERICAS

Revenue in Americas was DKK 1,045 million for the quarter, an increase of 52.1% or 54.3% in local currency compared to Q2 2012. Growth was driven by continued strong growth in the US and Canada.

US revenue was DKK 802 million (accounting for 41.5% of Group revenue), an increase of 53.9% or 55.6% in local currency compared to Q2 2012. Revenue growth was primarily driven by successful newly launched products, continued high replenishment rates as well as an increase in the number of branded stores. However, the comparable figure for Q2 2012 was impacted by the stock balancing campaign.

Like-for-like sales-out in Q2 2013, based on Concept stores in the US - which have been operating for 12 months or more - increased by 8.8% compared to Q2 2012. The strong sales-out performance is based on high sales-through for newly launched products.

PRODUCT OFFERING

The revenue distribution between product categories in Q2 2012, were affected by the aforementioned stock balancing campaign.

In Q2 2013, revenue from Charms increased by 44.3% compared to Q2 2012. Revenue from Silver and gold charms bracelets increased by 31.0% compared to Q2 2012. The two categories represented 83.2% of total revenue in Q2 2013 compared to 89.5% in Q2 2012.

Revenue from Rings was DKK 91 million, an increase of 18.2% compared to Q2 2012. Growth was driven by the improved commercial offering.

Revenue from Other jewellery was DKK 233 million, an increase of 323.6% compared to Q2 2012. Growth was primarily driven by other bracelets, which were positively affected by campaigns on leather bracelets, as well as the successful launch of a silver bangle. Other jewellery represented 12.1% of total revenue in Q2 2013 compared to 4.4% in Q2 2012.

GROSS PROFIT

Gross profit for the quarter was DKK 1,274 million compared to DKK 856 million in Q2 2012. This corresponds to a gross margin of 66.0% compared to 67.9% in Q2 2012 and 65.6% in Q1 2013. The decrease in gross margin for the quarter compared to Q2 2012 was primarily due to the expiration of the suspension of import duties on goods manufactured in Thailand into the U.S. The increase in the gross margin compared to Q1 2013, was due to a decrease in commodity prices.

COMMODITY HEDGING

It is PANDORA's policy to hedge 100%, 80%, 60% and 40% of expected gold and silver consumption in the following four quarters. The hedged prices for the following four quarters for gold are 1,583 USD/oz, 1,629 USD/oz, 1,539 USD/oz and 1,377 USD/oz and for silver 27.12 USD/oz, 26.73USD/oz, 26.71USD/oz and 22.33 USD/oz. However, current inventory means a delayed impact of the hedged prices on our cost of sales. The combined effect of the time lag from inventory and the 12-month

rolling hedges effectively means that PANDORA is fully hedged for the full year 2013.

The average realised purchase price in Q2 2013 was 1,553 USD/oz for gold and 27.86 USD/oz for silver.

Excluding hedging and the time lag effect from the inventory, the underlying gross margin would have been approximately 71% based on the average gold (1,418 USD/oz) and silver (23.23 USD/oz) market prices in Q2 2013. Under these assumptions, a 10% deviation in quarterly average gold and silver prices would impact our gross margin by approximately +/- 1-2 percentage points.

OPERATING EXPENSES

Operating expenses for the quarter was DKK 791 million compared to DKK 683 million in Q2 2012, representing 41.0% of revenue in Q2 2013 compared to 54.2% Q2 2012. The improvement in the cost ratio was primarily due to the increase in revenue.

Sales, distribution and marketing expenses increased 20.0% to DKK 559 million corresponding to 28.9% of revenue in Q2 2013 compared to 37.0% in Q2 2012.

Sales and distribution expenses increased 20.7% to DKK 356 million, corresponding to 18.4% of revenue compared to 23.4% Q2 2012. The increase in sales and distribution expenses were primarily due to an increase in number of PANDORA-owned stores (176 in Q2 2013 vs. 155 in Q2 2012).

Marketing expenses increased 18.7% to DKK 203 million, corresponding to 10.5% of revenue, compared to 13.6% in Q2 2012. The quarter was impacted by higher marketing expenses in Germany, including a write down of point of sales material of approximately DKK 15 million.

Administrative expenses for the quarter increased 6.9% to DKK 232 million, representing 12.0% of revenue, compared to 17.2% of Q2 2012 revenue. The current quarter was negatively impacted by approximately DKK 20 million related to organisational changes.

Please note that the cost ratios for 2012 are affected by the stock balancing campaign.

EBITDA

EBITDA for Q2 2013 increased by 140.9% to DKK 530 million resulting in an EBITDA margin of 27.4%, compared to 17.5% in Q2 2012.

Regional EBITDA margins for Q2 2013, before allocation of central costs, were 44.7% in Americas (44.0% in Q2 2012), 23.1% in Europe (5.0% in Q2 2012) and 36.1% in Asia Pacific (13.5% in Q2 2012). Unallocated costs decreased to minus 9.0% in Q2 2013 compared to minus 9.9% in Q2 2012.

Even with a lower gross margin, all regional EBITDA margins were up compared to Q2 2012. The

Americas regional EBITDA margin increased due to higher revenue, despite impact from the expiration of the suspension of import duties on goods manufactured in Thailand into the U.S. in end of June 2012. The margin increase in Europe and Asia Pacific was impacted by leverage from revenue increases in a number of markets. However, the margin in Europe was negatively impacted by higher sales, distribution and marketing expenses as well as an indirect effect from the extraordinary return of DKK 55 million in Spain.

EBIT

EBIT for Q2 2013 increased to DKK 483 million, an increase of 179.2% compared to the same quarter 2012, resulting in an EBIT margin of 25.0% for Q2 2013 versus 13.7% in Q2 2012.

NET FINANCIAL INCOME AND EXPENSES

In Q2 2013, net financial income amounted to DKK 49 million, of which DKK 48 million was an exchange rate gain. This compares to a net financial expense of DKK 96 million in Q2 2012.

INCOME TAX EXPENSES

Income tax expenses were DKK 101 million in Q2 2013, implying an effective tax rate of 19% for Q2 2013 compared to 18% for Q2 2012.

NET PROFIT

In Q2 2013, net profit increased to DKK 431 million from DKK 63 million in Q2 2012.

BALANCE SHEET AND CASH FLOW ITEMS

In Q2 2013, PANDORA generated free cash flow of DKK 102 million compared to DKK 91 million in Q2 2012 and corresponding to a cash conversion of 23.7% compared to 144.4% in Q2 2012. The decrease is mainly due to an increase in net working capital, which was negatively impacted primarily by movements in other receivables.

Operating working capital (defined as inventory and accounts receivables less accounts payables) at the end of Q2 2013 corresponded to 24.9% of the preceding twelve months revenue, and compares to 36.8% at the end of Q2 2012 and 26.9% at the end of Q1 2013.

Inventory increased to DKK 1,463 million at the end of Q2 2013 from DKK 1,396 million at the end of Q1 2013 and decreased by DKK 462 million versus Q2 2012. The increase from Q1 2013 to Q2 2013 can be explained by normalisation of inventory levels. Compared to Q2 2012 the gold and silver prices affected inventory with a decrease of approximately 7%.

Other receivables were DKK 719 million in Q2 2013, an increase of DKK 186 million compared to Q1 2013. Other receivables for the quarter were impacted by an increase in changes in prepaid tax and timing issues related to VAT, linked to the European distribution centre. As part of the

establishment of the European Distribution Centre, PANDORA has paid quarterly VAT to the German tax authorities from Q1 2012. The accumulated total outstanding VAT, to be repaid to PANDORA, was by the end of Q2 2013, DKK 380 million. In August 2013, DKK 60 million of the outstanding VAT was repaid to PANDORA. The VAT refund is expected to be repaid in six to nine months.

In Q2 2013, PANDORA's CAPEX was DKK 83 million, including intangible investments of DKK 33 million mainly related to key money in connection with the opening of some PANDORA-owned stores, as well as IT Investments. CAPEX constituted 4.3% of Q2 2013 revenue.

NOTES

NOTE 1 – Significant accounting estimates and judgements

In preparing the consolidated financial statements, management makes various accounting estimates and assumptions, which form the basis of presentation, recognition and measurement of PANDORA's assets and liabilities.

All significant accounting estimates and judgements are consistent with the description in the Annual Report for 2012. We refer to the description in note 1 of the consolidated financial statement in PANDORA's Annual Report for 2012.

NOTE 2 – Seasonality of operations

Due to the seasonal nature of the jewellery business, higher revenue is historically realised in the second half of the year. However, the product drop structure has been changed from two to seven drops annually, which might impact the seasonality of revenue for 2013.

NOTE 3 - Operating segment information

PANDORA's activities are segmented on the basis of geographical areas in accordance with management's reporting structure. In determining the reporting segments, a number of operating segments have been aggregated. All segments derive their revenues from the types of products shown in the product information provided below.

Management monitors the segment profit of the operating segments separately for the purpose of making decisions about resource allocation and performance management. Segment profit is measured consistently with the operating profit in the consolidated financial statements before non-current assets are amortised/depreciated (EBITDA).
